Industrial & Commercial Cleaners: Supporting Peterborough for over 30 Years

Returning to Work? We are here to help you:

We do understand that some staff may be feeling anxious about returning to work when the time arrives. Maintaining high levels of hygiene at your business premises will minimise the spread of COVID -19 and give reassurance to employees. We are here to help develop your 'return to work action plan.' We suggest:

1 – Consider a Deep Clean

In the first instance you may be considering a **'deep clean' of the premises** prior to returning. This will ensure that every area of your workplace is disinfected, including skirting boards, windowsills, door handles, light switches, plug points, all furniture, fixtures and fittings. Any traces of the virus will be eliminated with the use of strong antibacterial products on all surfaces, and cleaning stations can be set up if required.

2 – Ongoing Cleaning Scheduled

Moving forward, employers should consider the occupancies and surfaces where frequent human contact might provide a reservoir for COVID-19. **This is often referred to as touch point cleaning.** While each office and facility will be different, the following areas should receive attention:

- **Areas where the staff, customers or the public congregate**, including offices, conference rooms, canteens and cafeterias, locker rooms and receptions.
- **Bathrooms and hygiene facilities** including toilets, shower rooms and hand-washing stations
- **Dispensaries** including medical and first aid stations, emergency showers and eye wash stations.

We suggest the following frequently touched surfaces must receive daily attention:

- Desktops and all work surfaces
- Doorknobs and door handles
- Light switches and dimmer switches
- Computer monitors, keyboards, and mice
- Tablets and laptops
- Telephone equipment
- All chair rests and arms
- All canteen tables and chairs, sink taps and kitchen areas
- Toilets, including all surfaces
- Water fountains and drinks dispensers and vending machines
- Lifts and their doors and buttons

These areas should preferably be cleaned daily by a professional, and the general cleaning guideline is that the more people who have contact with these surfaces, the more frequently that surface should be cleaned. Scientific evidence points to the virus being able to exist on surfaces for between 72 hours and 6 days.

KRYSTAL KLENE SERVICES

Industrial & Commercial Cleaners: Supporting Peterborough for over 30 Years

If your professional cleaning service is not daily and you do not have the capacity to increase it, we would suggest some in-house measures, including:

- Putting disinfectant sprays and wipes in prominent areas such as entrances, offices, kitchen areas and areas of drop off and collection points
- Removing shared tools and equipment and ensuring staff have personal tools and equipment
- Implementing a clean desk and self-sanitising policy for staff.

3 - Please contact us if you wish to discuss any aspects of your cleaning service or for more advice tailored to your specific premises

Email Caroline or Graham at info@krystalklene.com for a same day response

Call Graham on 0785 000 6290 to discuss your requirements

Please note, we are happy to provide any anti-bacterial sprays or sanitising wipes to help you if required to set up staff cleaning stations.

During this busy time, we will ensure all of our current valued customers gain priority over our services, including deep cleans which may need to be undertaken at short notice.

4 - Why us?

- During the pandemic, we have been employed by the NHS and the local authority to clean doctors' surgeries, midwife clinics, and other key buildings.
- We are trusted in the local market, with over 30 years' experience and having undertaken extensive research into ensuring your business will be protected.
- All deep cleans are undertaken by CQC qualified staff
- We have the right products and materials to keep your staff safe.
- We are on hand 24 hours a day to support you if there is an issue in your office that causes concern.

We look forward to working closely with you to get your business started again.
